

TO WHOM IT MAY CONCERN

**Date** 29/01/2019  
**Hospital name** NH Hospital a.s. - Nemocnice Hořovice  
**Street** K Nemocnici 1106/14  
**City** Hořovice, ZIP:268 01  
**Country** Czech Republic  
**Phone** +420 775 324 006  
**Contact person** Ing. Kamil Kudelka  
**Title** Mr.  
**FSN monitor model** FS-P3101D, FS-P3102D, FS-P3102DS, FS-L5502D

We hereby confirm that in period of 2018, the Hospital resp. Central operation rooms acquired FSN Monitor models: 2x FS-P3101D, 1x FS-P3102D, 1x FS-P3102DS, 1x FS-L5502D, manufactured by Foreseeson.

FS-P3102D and FS-P3102DS monitors are used right in the operation room as monitors for laparoscopic towers connected to the Olympus OTV-S190.

On average, every day during the various procedures using Monitors for average **12 hours a day**, **average of 15 patients** are examined daily.

FS-P3101D are used at endoscopy dept. with Olympus CV-190 EXERA III videoprocessors.

On average, every day during the various procedures using Monitors for average **7 hours a day**, **average of 20 patients** are examined daily.

All monitors are used in the daily clinical practice of our institution when working with laparoscopes and endoscopes.

FS-L5502D is used in the preroom condition for various purposes (education, observing, controlling). This monitor is almost still on during the CO rooms standard working hours 7:00 am – 7:00 pm.

**More comments**

FS-P3102D, FS-P3102DS
We did not have any technical issue so far. The image quality, brightness, collors is great and stable.
We are planning to go up with Visera 4K UHD videoprocessor and 4K camera head on one older tower and we expect that it is even going to improve the whole „chain“.
FS-P3101D – we do a lot of gastroscopy and colonoscopy examinations (5000-6000). Doctors are satisfied with colors, brightness, viewing angle enough.
FS-L5502D used as described above. No complainings. It serves as was expected.

**During the usage of the monitors there were no complaints and negative reviews from medical workers.**
