# Expandable 4K Video Over IP Network

### **Vy-Net2** Features and Benefits

### **Connectivity That Grows With You**

Vy-Net2 is a video over IP network solution that connects video sources to end-point destinations, using minimal hardware. The system uses Ethernet infrastructure.

Vy-Net2 generates uncompressed video with zero latency. It deploys quickly, integrates smoothly, and is ready to expand when future needs change.

An installation can be in a switching system (one encoder to one, many or all end points via multicast) or as a simple point to point streaming device/extender via Cat6a/Cat7 cabling.

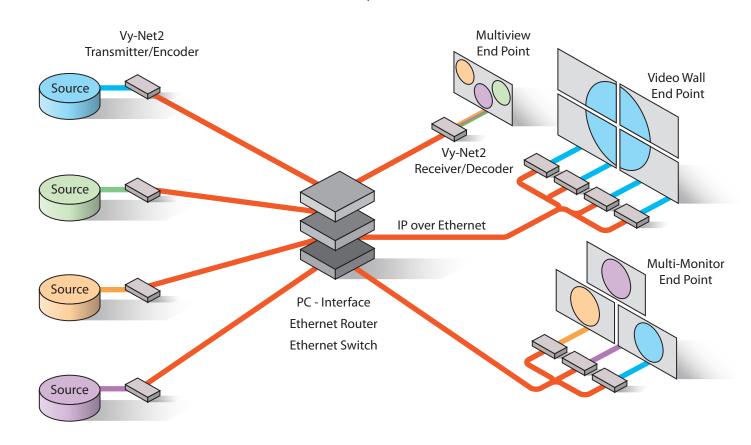

### **Simple Interface, Powerful Features**

The Vy-Net2 web-based interface helps with initial setup, and controls the daily use of Vy-Net2 devices. The interface routes sources to monitors, up to 4K@60 fps video. The interface also allows naming of sources and monitors, previews active video signals, has a library of icons for customization, and

offers resizing/repositioning of picture-in-picture or multiview layouts. Audio and KVM functions are also available. The interface operates on any device running Chrome browser with access to the Vy-Net2 network.

Vy-Net2 units are powered by the included power supply. Other requirements include a Wi-Fi router, recommended Cat6a/Cat7 cable, and a 10Gb network switch.

# Expandable 4K Video Over IP Network

#### **Features and Benefits Vy-Net2**

#### **General Features**

Item	TX RX Description
Input Signal	• HDMI 2.0
	<ul> <li>10GbE (copper)</li> </ul>
Output Signal	• 10GbE (copper)
	<ul> <li>HDMI 2.0</li> </ul>
Maximum Resolution	3840 x 2160 @ 60Hz
Keyboard Connector	USB A-Type x 1
Mouse Connector	USB A-Type x 1
Audio Connector	Phone Jack, 3.5 mm
Unit Dimension	195(W) x 35(H) x 110(D) mm 7.68(W) x 1.38(H) x 4.33(D) inch
Power Supply	DC + 12V
Operating Temperature	0° - 40° C
Relative Humidity	1 - 80%, non-condensing
Recommended Cable	Cat6a/Cat7
Weight	• 600g, 1.32 lbs.
	• 605g, 1.33 lbs.

### Key benefits of video over IP.

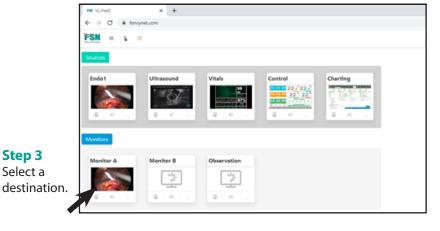

- Infinitely scalable. Add/remove system components with ease.
- Unlike traditional matrix switches, the distribution core is not centralised.
- · Longer cable lengths are allowed.
- · Ratio of inputs to outputs is not a barrier.
- · Communications can be merged with data (subtitles, closed captions, time codes).

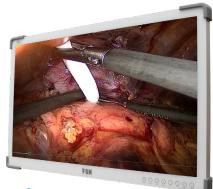

# Key benefits of The Vy-Net2 solution. • 3840 x 2160 @ 60Hz.

- Web-based user interface.
- Signal preview.
- · Picture-in-picture or multiview layouts.
- · Competitively priced.

Step 4 Vy-Net2 routes the video.
